ABOUT ME

Recent Information Technology graduate with internship experience in technical support, system development, customer service, and business applications. Skilled in troubleshooting, Microsoft Office, networking fundamentals, and Excel reporting. Seeking an entry-level Office Staff, IT Support, or Technical Support position where I can contribute and continue developing my technical skills.

Technical Skills

Design and Creative Tools:

Canva & Figma

Web Development: PHP, MySQL, XAMPP (Local Development Environment), SQL Database Management

Version Control & Productivity Tools:

Anti-gravity, Gemini & ChatGpt

Microsoft office suit (Excel, Word, Powepoint, outlook)

Work Experience and Projects

Caelum Financial Solutions | UI/UX & Front-End Developer Intern 2025 – 4months

Figma-to-React Workflow: Successfully translated high-fidelity Figma prototypes into functional web components, optimizing the UI/UX during the development phase.

Front-End Development: Built and refined responsive user interfaces using React and JavaScript (JS) to ensure a seamless financial dashboard experience.

Design Optimization: Iterated on existing design systems to improve usability, accessibility, and visual hierarchy while coding.

Version Control: Managed code updates and collaborated with the development team using Git and GitHub.

Government Service Management System with Real-Time Disaster Mapping and Emergency Response Chatbot (Rasa AI) Capstone Project | 2025 – Present | duration: 6months

Role: UI/UX Designer & System Flow

Designed the overall system layout and user interface using modern UI principles.

Created user journey flows between Citizen and Admin users.

Developed structured communication flow for emergency reporting and response.

Designed role-based access control (RBAC) architecture to ensure secure user permissions.

Planned dashboard interface for real-time disaster mapping visualization.

Collaborated with developers to align UI design with system functionality.

LODZ Bar | Barista & Graphic Designer – 2025 | duration: 9months

Designed brand identity materials including logo and promotional graphics using Canva.

Created marketing assets for events, increasing customer engagement.

Designed menu layout and improved visual presentation of in-store materials.

Provided customer service while supporting internal creative projects.
